Workforce Talent: Building our Regional Advanced Manufacturing Sector

Finger Lakes Advanced Manufacturers' Enterprise (FAME) is a partnership of manufacturers supported by regional workforce and economic development agencies—partnering with schools and training institutes—whose primary goal is to increase development and prosperity in the Finger Lakes region through manufacturing networks, mentoring youth on the attractions of a career in manufacturing, and working with educators to prepare the workforce for exciting and rewarding careers.

When you join FAME, you can: become a leader in creating innovative workforce initiatives and building the workforce talent that our industry needs to thrive in a globally competitive marketplace. Our commitment to the region's advanced manufacturing companies is to build world-class workforce talent that has the skills, inspiration and motivation to advance the industry.

When you join FAME, you can: directly impact the present and future advanced manufacturing workforce by:

- ✓ Strengthening industry advancement through partnerships with educational entities
- ✓ Directing and having a voice in workforce educational curriculum development
- ✓ Helping to focus and coordinate workforce services to the industry cluster
- ✓ Improving opportunities for industry workforce careers

When you join FAME, you can: participate in Pipeline activities, career and job fairs; open your company's doors for tours; accept student interns, shadows and co-ops; provide industry leadership and voice; work with educational partners/school advisory boards; participate in FAME Committees.

FAME creates awareness of, and ignites passion for, careers in advanced manufacturing – and works to align educational resources to industry needs — Building Minds that Make It!

Bronze Membership

Open to advanced manufacturing companies with 12 or less employees.

Associate Membership

Open to government, non-profit and community-based agencies, regional educators, economic development professionals.

Vendor Membership

Suppliers and consultants that service advanced manufacturing businesses in the region.
